

## Referral

When you tell a friend about chiropractic, you offer encouragement.  
When you tell a work associate about chiropractic, you offer direction.  
When you tell a loved one about chiropractic, you offer hope.

- Encouragement
- Direction
- Hope.

Each is a part of the healing process. So when you tell others about the positive experience you have had in this office, you're using some methods the best doctors use

This office depends upon informed patients to share the chiropractic message with others. We're counting on you to dispel the myths and overcome the incorrect notions many of your friends may have about chiropractic care.

If we can help, we will tell them. If we cannot, we will refer them to other specialists, if their problem is outside the scope of our practice.

**Together, we make a great team.**
